CERTIFICATE OF ANALYSIS No. 194308

Ref. : Calcium Chloride Prills
Marked : Calcium Chloride Pellets 94/98% 15.12.09
Received on : 16.12.2009 by : handed over to us
Packing : plastic container
Type of sealing : none
Start/end of analysis : 23.12.2009 / 13.01.2010

Analysis as per Directive 2008/84/EC:

Identification	:	passes test for chloride and calcium
Solubility	:	freely soluble in water and ethanol
Magnesium and alkali metals	% w/w :	<5
Loss on drying (Ph. Eur., method 2.2.32)	% w/w :	<0.01
Fluorine	ppm :	<40
Arsenic	ppm :	<1
Lead	ppm :	<1
Mercury	ppm :	<0.1
Assay (calculated on the dried basis)	% w/w :	96.2

With regard to the analysed parameters the tested sample material meets the respective requirements of directive 2008/84/EC.

The analysis results are representing only the tested sample material. This report may only be copied completely. A partly usage of this report is not allowed without our permission. The samples will be stored at our laboratory for 3 months. IAR marked methods are accredited for long shelf-lives.
